Minimum 2 persons!

Day 1 Los Angeles / Quito (Ecuador)

Sat Depart from Los Angeles on a mid-night flight to Quito, capital of Ecuador.

Day 2 Quito (Breakfast)

Sun Quito colonial city tour exploring the bustling streets and squares of the largest historical old town in the Americas. Visit some of its most important churches such as the majestic La Compania and iconic San Francisco, repositories of a stunning multi-ethnic artistic and cultural heritage.

Day 3 Galapagos (Baltra Airport) For a 4 Days / 3 Nights Cruise – North Seymour Island (Breakfast)

Mon Departure from Quito or Guayaquil to Baltra (2 and half flight). Passengers are picked up at the airport by our guides and taken to the pier to board the M/V Galapagos Legend.

North Seymour

Dry landing. Guests will encounter swallow tailed gulls and sea lions. This site is a major nesting colony of blue footed boobies, and has the largest colony of the magnificent frigate bird. Travelers will also spot both the marine iguanas and land iguanas and will have snorkeling opportunities.

Day 4 Cruise: Santa Cruz (Dragon Hill or Venice)

Tue Wet landing. Passengers walk to a saltwater lagoon behind the beach, where on occasion many pink flamingos can be observed. This trail leads up to Dragon Hill, which offers a lovely view of the bay. This is a nesting site for reintroduced land iguanas, and there is also a Scalesia tree forest.

Passengers may opt to take a dinghy to Venice islet and observe the vegetation and marine animals like spotted eagle rays, golden rays, mullets, sharks and sea turtles. Land iguanas have often been observed as well.

Floreana (Cormorant Point)

Wet landing on a greenish colored sand beach. Visitors will hike from the black mangrove beds to a large, brackish lagoon, which holds one of the biggest flamingo populations in the Galapagos. The island is best known for its endemic plants like the Galapagos millwork, passion flower and button mangrove. Novice snorkelers can practice on the main beach with the playful sea lions; experienced snorkelers can roam around Devils Crown. Please keep in mind this is an open-water activity; there is nothing to step on.

Day 5 Cruise: Española (Suárez Point)

Wed Dry landing. Visitors will learn more about the lava terrain and cross the inactive lava fields. Besides the sea lion colonies, this is a very important site for bird watching. Many species, such as the hooded mocking bird and red billed tropic bird can be spotted and observed closely. You will also see a large colony of marine iguanas, lava lizards, and rally light foot crabs. After a short trek visitors encounter colonies of masked and blue-footed boobies. The nesting grounds sometimes overlap the trail. Visitors will also find Galapagos doves, hawks and swallow-tailed gulls and then reach the world's largest colony of waved albatross. A major highlight is their mating season, from May through December. You'll visit the famous blowhole, where water shoots into the air about 23 m (75 ft).
